TC 1700

Commissioner for Patents
Washington, D. C. 20231

Sir:

Pursuant to 37 CFR §1.56, §1.97 and §1.98, documents that may be material to the examination of this application are listed on the attached Form PTO-1449. Copies of each of the listed documents are enclosed.

No fee is believed to be required under 37 CFR § 1.97. However, please charge any fees due to our Deposit Account No. 15-0508.

No inference should be drawn that the cited documents represent a comprehensive investigation, or that any disclosure in the cited documents is equivalent to the subject invention.

The cited documents disclose numerous specific features. However, no attempt is made to enumerate each and every feature disclosed by each document. The Examiner is requested to review these documents and to determine the extent of the materiality of the document disclosures, if any, with respect to the present invention. Applicants believe that the disclosures in these documents do not teach or suggest their present invention.

The discussion of any art and the citation of any document is not to be construed as an admission that the art or document disclosure is necessarily within the invention's field of endeavor, that the art or document disclosure is necessarily prior in time to a particular date

which may be relevant to the present patent application, and/or that the art or document disclosure is otherwise necessarily prior art as defined by the patent law with respect to the present invention and application.

Also, applicants reserve the right to later set forth how the claimed invention is distinguished over the disclosure of any document or other art, including the disclosures of the art and documents recited herein, and that may be cited by the Examiner in rejecting a claim in the present patent application.

The herein cited art is not to be construed as an assertion that more pertinent art could not possibly be in existence.

Respectfully submitted,

Date: February 27, 2003
